What Previous Attendees Have Said About Collector.Live!

I loved the event. It was great to have access to an event like this from the comforts of our office. It allowed me to provide the content to my whole staff as opposed to a few key people.

Very good. Great content, energetic presenters which kept our employees engaged. Presenters discussed great examples of what they were talking about and good ideas. We all know this stuff but it is always great to hear it from other people and their "spin".

We had a great time and learned a lot. It was so valuable to everyone, especially beginner collectors, to see that the challenges that they face are not unique to our company. I think it built morale to realize that we're all in this together.

Great sessions, great speakers, very educational and informative!

There was so much respect and praise given to the collector. They need that recognition in this type of setting. There was 'nuts and bolts' content where the collector could literally implement what they learned when they got back to the office.

I thought it was great. I am proud to say it reminded the staff attending that we really do it right! Hearing it from other industry professionals helps make what we teach and why we teach it make more sense. We did pick up a few things to review to make sure we are even more consumer friendly and compliant.

Our staff loved it! Each staff member had something to bring back to the office, and start applying.
